It is his intention to introduce pleasing new styles in Wall Decoration.

Our spring showing, many designs in which are private to us for Kentucky, makes this possible because of the originalty and beauty of the patterns

Physicians tell us that all the blood in a healthy human body passes through the heart once in every two minutes. If this action becomes irregular the whole body suffers. Poor health follows poor blood; Scott's Emulsion makes the blood pure. One reason why

SCOTT'S EMULSION

is such a great aid is because it passes so quickly into the blood. It is partly digested before it enters the stomach; a double advantage in this. Less work for the stomach; quicker and more direct benefits. To get the greatest amount of good with the least possible effort is the desire of everyone in poor health. Scott's Emulsion does just that. A change for the better takes place even before you expect it.

We will send you a sample free. Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy. SCOTT & BOWNE Chemists 409 Pearl St., N. Y.

TRAMPING HALF A CENTURY King of the Hoboes Admits Having

Once Worked, However-Tries to Live It Down.

Hereford, Pa.-The mild weather of the last few weeks has enticed many tramps from their winter quarters and the farmers in this section have had occasion to be liberal with their "handouts."

Berks county has the reputation of harboring more tramps than any other county in the state, and perhaps the nation, and in the ranks of these hoboes there are many interesting characters. The premier tramp, the bum par ex-

cellence, the incarnation of the hobo genius, is undoubtedly Fred Bergeman, who, though a native of the kingdom of Saxony, has tramped the highways of America for 37 years and likes his calling. Even his record is not perfectly

clear. It is sullied by the fact that for five weeks he held a job in a Connecticut rolling mill, but that was years ago and he has done his best since that time to live it down. Thrown upon his own resources at the age of 12 years, Bergeman wandered through North Germany and Holland and to escape military duty,

with its enforced work and cleanliness, he emigrated to America. He tramped the empire state, drifted into Connecticut, where the nightmare of the rolling mill was endured, and finally ambled into Pennsylvania and happy Berks county. Bergeman says he has slept in thousands of table. The seed of a potato that grows barns in 30 different states. He is twice in his life.

"Kind-hearted people then saw I was cared for in hospitals," he says, "and I am just as sure it will be seen that my body has suitable burial."
